Professional Summary

CSE-AI graduate with hands-on experience in data analysis, reporting, data visualization, and dashboard development using Excel, SQL, Python, and Power BI. Skilled in cleaning, validating, analyzing, and visualizing data to identify trends, patterns, anomalies, and actionable insights. Developed analytical projects involving sales and operational data with a focus on data accuracy, clear reporting, and stakeholder-ready visualizations.

Technical Skill

Excel: Pivot Tables, XLOOKUP, VLOOKUP, SUMIFS, AVERAGEIFS, Charts, Slicers, Dashboards
Power BI: Data Cleaning, Data Modeling, DAX, KPI Development, Interactive Dashboards, Data Visualization
Python: Pandas, NumPy, Data Cleaning, Exploratory Data Analysis, Data Visualization
SQL: SELECT, Filtering, Aggregate Functions, GROUP BY/HAVING, JOINs, CASE WHEN, CTEs, Window Functions
Analytical Skills: Data Validation, Trend Analysis, KPI Analysis, Reporting, Insight Generation

Education

Parul University, Bachelor of Technology – Computer Science and Engineering (AI) 2022 – 2026
Kamala Junior College, Intermediate – MPC 2020 – 2022
Sri Vivekananda Vidya Peetam, Secondary Education – SSC 2019 – 2020

Internship

AI Intern – BIST Technologies Pvt. Ltd. Jan 2026 – Mar 2026

Completed a 4-month industrial internship focused on Artificial Intelligence as part of the B.Tech CSE-AI curriculum.

Projects

Employee Analysis Dashboard – Excel
- Analyzed employee data using Excel functions, pivot tables, charts, and dashboard visualizations to summarize key metrics and trends.

Amazon Sales Dashboard – Power BI
- Developed an interactive dashboard with KPI cards, category analysis, and visualizations to monitor sales performance and trends.

Flights Data Analysis – Python
- Cleaned, analyzed, and visualized flight data using Python, Pandas, and NumPy to identify patterns and trends.

SecureMail – Advanced Spam Detection System – Academic Project
- Contributed to the frontend development of an academic spam detection system with a web application and browser extension.

Technologies

Data Analysis: Pandas, NumPy, Matplotlib, Seaborn

Tools: Jupyter Notebook, MySQL Workbench, Git, VS Code
